Fees (Class F)	1/20 (with HWM)
RSP, TFSA Eligibility	Yes

STRATEGY DESCRIPTION

Majestic Managed Futures strategy has evolved over time from covering a few markets in 2005 to over 75 futures instruments today. We now offer a diversified multi-strategy, which is more robust and less volatile, while continuing to capitalize on fear and greed in the marketplace. The strategy, which is available through the Majestic Global Diversified Fund, covers global futures markets such as grains, metals, energy products, soft commodities, meat complexes, currencies, interest rate instruments and stock indices. The strategy's objective is to provide investors with returns that are non-correlated to traditional asset classes such as equities, real estate and bonds. We target higher returns than that of international benchmarks while attempting to offer a less volatile distribution of returns.
